New York State is leading the nation with its commitment to develop 9,000 megawatts of offshore wind energy by 2035, enough to power up to 6 million homes. The first phase of projects is on track to provide 1,696 megawatts by 2024. Multiple project phases will bring over 10,000 jobs and billions in economic investment and establish New York as a leader for the emerging U.S. industry.
